PROFESSIONAL SUMMARY

Passionate Computer Science student specializing in AI-ML, with hands-on experience in web development and content creation. Skilled in frontend technologies and collaborative project execution, with a strong focus on delivering impactful and innovative tech solutions.

EDUCATION

Bachelor of Technology (AI ML) Newton School of Technology, ADYPU	2024 - 2028 Grade: 5.84/10.0
Intermediate (Class XII) Pace Junior Science College, Kalyan	2023 - 2024 Grade: 53.8%
Matriculation (Class X) Smt. K.C. Gandhi English School, Kalyan	2021 - 2022 Grade: 77.8%

EXPERIENCE

Freelancing Media One PR	January 2026 - May 2026 <i>Pune</i>
- Developed a responsive PR agency website using React and Tailwind CSS, delivering a scalable platform to showcase 500+ entertainment campaigns and services. - Built reusable UI components and optimized performance using Vite, improving load speed and user experience across devices. - Structured and presented high-impact content highlighting 1M+ campaign impressions and 50+ industry collaborations, strengthening digital presence.	

INTERNSHIPS

Full Stack Developer Intern Bhairavacha Bhandara - Ticket Booking Site	March 2025 - May 2025 <i>Pune</i>
- Redesigned and optimized the UI of a ticket booking platform using React and Tailwind CSS, improving usability and responsiveness. - Collaborated with designers and backend teams to deliver product-aligned features efficiently and ensure seamless integration. - Integrated Supabase for backend services, enabling real-time data handling and streamlined admin panel functionality.	

PROJECTS

NiveshNidhi – Chit Fund Platform (Github) (Demo)	March 2026
*Developed a digital chit fund platform integrating AI risk analysis, blockchain audit trails, and secure escrow payment systems. *Implemented Aadhaar-based KYC and trust verification with risk scoring to ensure secure user onboarding. *Built an AI Risk Engine using Scikit-learn, TensorFlow, and XGBoost to detect high-risk users and fraudulent patterns. *Designed blockchain-based (Polygon) tamper-proof logging for financial transactions to ensure transparency and security. *Developed escrow payment workflows with Razorpay integration for secure and controlled fund disbursement.	
BookBuddy - Ticket Booking App (Github) (Demo)	November 2025

- Built a cross-platform movie ticket booking app with seat selection and digital QR tickets
- Implemented browsing, search, and booking history for seamless user experience
- Designed responsive UI with smooth navigation and optimized performance
- Tech Stack:** React Native, Expo

- Built responsive and scalable UI for student idea submission, dashboards, and collaboration features
- Implemented role-based navigation with protected routes for students and admins
- Delivered a modern UX using component-driven architecture
- **Tech Stack:** React, Tailwind CSS, Radix UI, React Router, Express, Prisma ORM

BookMyJet – Flight Ticket Booking Web App ([Github](#)) ([Demo](#))

April 2025

- Built a modern flight booking platform with a clean and responsive UI.
- Designed scalable frontend architecture for future feature expansion including authentication, payment, and admin management.
- Focused on an intuitive user experience with optimized routing and mobile-first design
- **Tech Stack:** React, Tailwind CSS, Vercel

CERTIFICATIONS

AI-Driven Market Analysis & Prediction Udemy ([Link](#))

October 2024

Learned predictive modeling, market analysis, data preprocessing, and AI applications in market forecasting.

SKILLS

Computer Languages: TypeScript, HTML, JavaScript, Python

Data Tools: Power BI

Software Packages: Figma, Next.js, Tailwind CSS, Next JS, React Native, Prisma ORM, React, Node.js, Bootstrap, Excel, Express JS, MySQL, MongoDB

Additional Courses: Data Structure

Soft Skills: Decision-making, Creativity, Critical Thinking

Others: Git and Github, Docker, Firebase, Nginx, Postman, Canva, UI/UX, Graphic Design, Bash Scripting, GitHub Actions, Supabase, OAuth 2.0, AWS, Jira

EXTRA-CURRICULAR ACTIVITIES

- Indian Innovation Council Hackathon (SIT Pune)** – Project Morpheus: Won **Silver** at **national level**, competing against 120+ teams, showcasing innovation and technical execution.
- **Open-Source Contributor - DrawDB**
Added a new feature to the DrawDB open-source project, which was successfully reviewed and merged, enhancing its database design capabilities.
- Smart India Hackathon (SIH):** Cleared college-level round, demonstrating problem-solving and teamwork skills.
- **Go For Gold (ICPC Elite Bootcamp) – Core Community Member (Design):** Designed official logo and event goodies, building strong brand identity.
